Comparison of Wood and Non-Wood Crossarms

INSTRUCTOR: HI-LINE ENGINEERING

SEPTEMBER 15, 10–11:30 A.M.
Register by September 8

As technology changes, new products, resources and options become available. Today, utility designers have more options available for support arms than ever before. It is important that designers receive a balanced knowledge of the pros and cons of available materials. Options must be evaluated to best serve members and deliver on the promise of building safe and reliable lines.

Participants learn:
- Variety of support arms on market
- Mounting techniques and braces
- Application based pros and cons of different crossarms
- NESC requirements

Webinar Registration Fees
- Member Registration: $99 per person
- Group Rate: $295 per cooperative (unlimited attendees)
- Nonmember Registration: $200 per person

Note: A $50 charge will be applied per student for cancellations after the “register by” date listed above.
