Designing Roadway Illumination

INSTRUCTOR: HI-LINE ENGINEERING

APRIL 14, 10–11:30 A.M.
Register by April 7

Electric cooperatives have a high safety culture. It is a promise we make to members and employees often saying, “reliable, safe, and affordable.” Part of community safety is roadway illumination. More than 50 percent of all fatal highway crashes occur at night, even though night time traffic volumes are only 25 percent of all traffic. Roadway lighting helps to reduce this hazard. In this webinar attendees will discuss AASHTO and IES standards for luminance and illumination.

Participants learn:
• AASHTO and IES standards
• Effects of glare and methods for glare reduction
• Standard pole spacing
• Lighting layouts

Webinar Registration Fees
Member Registration: $99 per person
Group Rate: $295 per cooperative (unlimited attendees)
Nonmember Registration: $200 per person
Note: A $50 charge will be applied per student for cancellations after the “register by” date listed above.
