Load Balancing on Wye Systems

INSTRUCTOR: HI-LINE ENGINEERING

JULY 7, 10–11:30 A.M.
Register by June 30

Every winter and summer, utilities dispatch crews to change phases on taps in an effort to balance the load on the system. This webinar will explain the importance of load balance to reduce losses and to improve the overcurrent protection systems. Techniques and methods will be presented as well as best practices for system load balancing.

Participants learn:
- The basics of load balancing
- The benefits of load balancing
- Best practices from industry experts

Webinar Registration Fees
Member Registration: $99 per person
Group Rate: $295 per cooperative (unlimited attendees)
Nonmember Registration: $200 per person
Note: A $50 charge will be applied per student for cancellations after the “register by” date listed above.

Continuing Education Units and Continuing Professional Education Hours
This course may be eligible for CEUs or CPEs, depending on the governing body. Upon request, TEC will provide a certificate of completion to participants who complete the entire course. Participants may use certificates to apply for CEUs/CPEs.

There are no prerequisites for this webinar.
