WEBINAR

Wood Poles: Standards and Design

INSTRUCTOR: HI-LINE ENGINEERING

OCTOBER 8, 10-11:30 A.M.

Register by October 4

Wood poles have been used in the electric utility industry since its inception. There are standards for wood poles (ANSI O5.1), and the NESC provides loading and strength requirements of poles. This webinar addresses limitations set forth in the standards, NESC loading requirements such as ice, wind, joint-use attachments, vertical loads and the need for strength reduction factors for wood poles.

Participants learn:

- The limitations in the wood pole standards (ANSI O5.1)
- How and when to apply NESC loading requirements for ice, wind, joint use attachments and vertical loads
- The need for strength reduction factors for wood poles

Webinar Registration Fees

Member Registration: \$99 per person

Group Rate: \$275 per cooperative (unlimited attendees)

Nonmember Registration: \$200 per person

Note: A \$50 charge will be applied per student for substitutions and cancellations after the "register by" date listed above.
